

## Why Himalayan Goji Juice is so Unique

**Dr. Earl Mindell** 's exclusive formulation(took 10 yrs to develop) using FreeLife's proprietary processes brought HGJ to the world in 2003. Widely regarded as the world's **#1 nutritionist**, he is the **author of over 50 books** published in 54 countries - including the biggest-selling nutritional book ever the "**Vitamin Bible**". A master herbalist and registered pharmacist, he has just been inducted into the California Hall of Fame for Pharmacists(2007).

FreeLife has the only **standardized form of Goji**. HGJ has a **guaranteed potency**. Each one ounce serving contains 27,500mg of Goji with 2.2 pounds of fresh berries used to produce one bottle of unpasteurized 100%juice. HGJ even has it's own **Spectral Signature** to identify, isolate, and harvest only those special goji berries with the active principles in the exact balance for the most potent & powerful Goji product – Himalayan Goji Juice

**4000 years of evidence** from among the Himalayans and **34 clinically proven benefits**  
There are **more than 70 actual published scientific research studies** on the effects/results of Goji on the **National Library of Medicine's & National Institute of Health** online.  
You can read these at [www.pubmed.gov](http://www.pubmed.gov) by searching under Goji's scientific name "Lycium Barbarum".

Scientific research has revealed four **unique and powerful polysaccharides** in the Goji berry that have **never been found in any other plant in the world!** Each of the four unique polysaccharides has a different effect on the immune system, cell growth, and other bodily functions.

These **Goji Master Molecules** are adaptogens making this the **most powerful anti-aging product** that Dr Mindell has seen in 40 years! Dozens of published scientific studies have confirmed that these polysaccharides are the **most important bioactive components**, and are responsible for much of the benefit of the goji berry. We chose to focus on this aspect of the goji, rather than emphasize the other nutritional aspects of this remarkable plant

HGJ has **no artificial additives**, no artificial sweeteners, colors or flavors

HGJ has proven itself in the ability to **sustain physical endurance and fast muscle recovery rate** by being the drink of choice by the **Ultra Distance Runners** that just completed their trek across the Sahara Dessert – 4700 miles in 111 days ( **50 miles a day**) drinking a bottle of Himalayan Goji Juice daily! In the news – February 2007
